

Ken Derksen

Cadence Environmental Energy

Ken Derksen is Director of Operations and Commercial Development for Cadence Environmental Energy, a leading supplier of alternate fuels and emission reduction technology to the worldwide cement industry. Ken joined Cadence in 1988 as the Distribution Manager and has served the company in many positions since that time.

He is experienced in the application and use of waste fuels, emissions control and alternate energy technology for cement kilns. Ken currently serves on the Executive Committee of CKRC (Cement Kiln Recycling Coalition) in Washington DC.

Prior to his tenure at Cadence, Ken was the Transportation Supervisor at New Energy Company of South Bend, Indiana, a company specializing in ethanol production.

He holds a Bachelor of Science Degree in Agricultural Economics from Purdue University and a MBA from Indiana University in South Bend.

Ken serves on his local church leadership board and enjoys stock trading, reading and working the family farm in South Bend where he lives with his wife Pam.
