

Linda Doman
Energy Information Administration
U.S. Department of Energy

Linda Doman is an Operations Research Analyst for the Energy Information Administration's Office of Integrated Analysis and Forecasting. Currently, she serves as lead analyst for EIA's annual mid-term forecasting report on worldwide energy markets, the *International Energy Outlook*. She has worked in international energy forecasting for EIA since 1993, focusing on world trends in energy consumption. Ms Doman has written a number of papers on international energy issues, and most recently co-authored a paper for the U.S. State Department's *Economics Perspectives: Challenges to Energy Security*.

Ms. Doman earned her BA in Mathematics and Anthropology (double major) from Franklin and Marshall College (1983, Lancaster, PA) and her MS degree in Statistical Computing from The American University (1989, Washington, DC). She has completed coursework towards a doctorate in Mathematical Statistics at The American University.
