

## **Cedric Jobe**

### **Nuclear Energy Institute**

Cedric has a total of 31 years in nuclear operations and support functions, including health physics, reactor safety and reactor licensing.

He is currently on assignment to the Nuclear Energy Institute in Washington D.C. where he is working with the industry in developing strategies and implementing plans to test the NRC's Part 52 licensing process, and in developing a risk-informed process for the licensing of advanced reactor designs. He has also participated on a number of IAEA task forces in the development of international standards, and was a member of the Canadian delegation to the Nuclear Safety Convention in 2002. Prior to his assignment at the NEI, he was Vice President of Nuclear Regulatory Affairs at Ontario Power Generation.

Cedric is a licensed professional engineer, and a graduate of Ryerson University (Toronto, Ontario).
