

Roger Kranenburg

Edison Electric Institute

Roger Kranenburg, a CFA Charter holder, is Director of Business Development of EEI's Alliance of Energy Suppliers, a division of EEI serving the needs of power producers and marketers. In his capacity, he directs the Business Development activities of the Alliance in advancing public policy and commercial interests of its member companies in issue areas that include: risk management, tax and finance, fossil fuel generation, renewable power, environment issues, workforce safety, rail issues, and other regulatory and legislative issues.

Roger has many years of industry experience in the energy sector in senior R&D, product development, program management, technology strategy, corporate and business development roles. He has extensive domestic and international experience in the fields of engineering, business, and finance with an M.Sc. in Electrical Engineering and an M.B.A.
