With the anticipation of key regulatory challenges, are the costs still unclear?

✓ John Anderson, Electricity Consumers Resource  
Council (ELCON)

### **Utility Infrastructure: Addressing the Aging Electric System**

People take the electric grid for granted. But government and businesses are taking notice.

✓ Jameson T. Smith, Midwest ISO

### **EPA Regulations: Overview and Impacts**

New and proposed EPA regulations present substantial challenges for utilities and their customers. As EPA moves forward with these new rules, is there any flexibility into how they can be implemented?

✓ Daniella Landers, Sutherland Asbill & Brennan LLP  
✓ Emily Fisher, Edison Electric Institute

### **Shale Gas a Game Changer?**

Newly accessible natural gas from deep shale deposits has been touted as a solution to everything from oil dependence to climate change. What kind of story is being told by our actual experiences? What is a realistic assessment of the role shale gas will play in our future energy mix?

✓ Chris McGill, American Gas Association  
✓ Bob Truman, CenterPoint Energy Services

### **The Future of Nuclear Energy after the Fukushima Disaster**

The earthquake and tsunami that hit northern Japan in March created the worst nuclear crisis since the Chernobyl disaster. How far back does it set nuclear policy here in the United States?

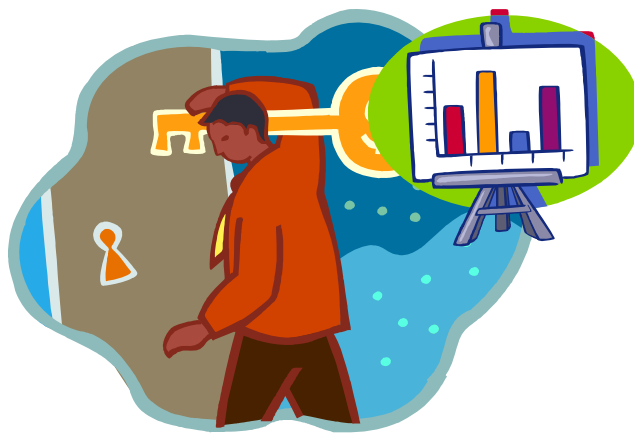

✓ Steve Kidd, World Nuclear Association
